

## **2016 Status of Florida's Children County Data Book Errata**

It has come to our attention that the chart representing School Readiness Entering Kindergarten data presented on each of the county pages in the original printing and distribution of the data book is labeled incorrectly. These charts represent data for the 2016 Kindergarten Immunization Levels. As of 8-24-17 the on-line data book version has been revised. We apologize for any confusion and inconvenience.
